### ◆ Color & Pattern Consultation

Bring harmony, flow, and personality to every room.

Color is more than just paint — it's the emotional foundation of your home. The right tones and patterns can make a space feel larger, brighter, and more welcoming. My Color & Pattern Consultation helps you select colors, fabrics, wallpapers, and finishes that work beautifully together, enhancing your home's natural light, character, and style.

Whether you're refreshing a single room or tying together an entire home, I'll help you find colors and patterns that express your personality and create a cohesive, inviting look. From soft neutrals to bold statement hues, every recommendation is tailored to your space and vision.
